AGENDA

1. Welcome & Introductions – Tammie Kilpatrick, Chair

2. Revised Mission Statement
   a. Proposed Mission Summary: The Legislative/Legal Advisors Committee will advise the Commission regarding potential necessary changes to Oklahoma law and will help make the recommendations of the Joint Commission become reality to the extent legislation or regulations are needed. The committee will assist the Commission in communicating the role of government in public health and prioritizing policy objectives accordingly. We will assist with research, drafting, and mechanics of passing legislation, including education around the value of public health and its impact on jobs and the economy, as well as the close interdependency of health and wellness, education and the economy, which all work to develop a healthier and more vibrant state.

3. Discussion and development of a plan to work proactively with the Legislature to educate around the value of Public Health (interdependency of health and wellness, education and the economy)
